

Rang a Dó le Ms. Moynagh agus Mrs. Sheridan

S.P.H.E.

Rang a Dó have 'high hopes' for 2018/2019.

History/English/Art

Second class have been working extremely hard in history. They learned all about the story of 'The Salmon of Knowledge'. In English,

they recounted the story using their knowledge of recount writing. In art, they created wonderful fish using a selection of materials and fabrics.

Friendship Fortnight

As part of friendship fortnight, second class took part in a variety of activities. In particular, they enjoyed making 'friendship' bracelets. When everyone had made their bracelet, the bracelets were collected and put into the blue container. Then without looking, everyone got the opportunity to pick a new bracelet to keep. Everyone was over the moon with their new bracelet.

Maths

As part of maths week, second class got the opportunity to work with junior infants. In class, second class made their very own number plates. They then went to visit the juniors and asked them a variety of maths questions about the number plates for example, what is the first number on the number plate? Second class then were invited back to juniors to help them with their maths stations. An enjoyable experience was had by all!
