

We learned all about St. Patrick and how he taught the Irish people about God using the shamrock. We also made our own St. Patrick's Day badges.

Second Class have been working so hard in maths learning how to do subtracting with renaming. This is something that they learn for the first time in second class and they are flying with it!

In S.E.S.E, Second Class have been learning all about China. They used all their new knowledge about China to complete a group project where each group made a travel brochure. They children worked very hard and their projects are fantastic!

On February 1st we celebrated St. Brigid's Day. The children learned about the amazing work St. Brigid did and we also read the story of St. Brigid's Cloak. To honour St. Brigid, we made our own cloak. Each child in Second Class designed a patch on the cloak and their designs represent a part of St. Brigid's life. Second Class are all very proud of their cloak!
